hereby contract Viollier AG to thaw our conserved, fertilized ova and / or embryos within the context of a medically-assisted fertility treatment. In accordance with federal law (FMedG, current version) regarding medically-assisted artificial reproduction, a maximum of 12 fertilized ova or embryos may be cultivated. The order shall be performed as follows:

1. Thaw (number) fertilized ova.
2. Thaw (number) fertilized embryos.
3. Should one or more of the thawed ova and / or embryos not have survived, further fertilized ova and / embryos are thawed.
 Yes No
4. Extended culture up to blastocyst stadium.
 Yes No
5. Embryotransfer of (number) embryos.
6. The surplus embryos shall be frozen in accordance with the Reproductive Medicine Act (FmedG current version).
 Yes No
7. We acknowledge that the freezing, storage and thawing of the fertilized ova or embryos is performed using tried and tested scientific methods. Viollier AG provides no warranty that the fertilized ova and / or embryos will be viable and suitable for establishing a pregnancy after thawing.
